

SPECIAL PROMOTION

ASID *Industry* INSIDER

RADHIKA V

Kalaa Chakra Interiors (KCI) design mantra is to create functional interiors which reflect one's lifestyle and culture. Having lived in Mumbai, Singapore and Atlanta with experience in residential and hospitality designs, Radhika brings an eye for detail, a rich aesthetic with a global perspective. Radhika believes each one deserves to live in a home which enriches their state of wellbeing and celebrates their individuality and accomplishments. Whether it is remodelling any interior space, designing a custom back lit LED bar or repurposing family heirloom furnishings, she ensures her clients are involved in every step of the design and decision making process. She feels accomplished when clients say they still are in love with the transformation even after years of project completion. Radhika's designs have been featured in multiple Dering Hall online articles, Voyage Atlanta and an upcoming Spring / Summer issue of Nest Magazine. When she is not working, you can find Radhika spending time with her doting husband and sporty dog at the Brook Run Dog Park. When it is time to unwind, the Maldives or an architectural heritage site top her list of "go-to" places.
